Copyright in the Digital Age

Tuesday, January 19th from 10:30 – 11:30 am Eastern

Competency: Laws, Policies and Procedures
Sub-Category: Understands, applies and explains applicable laws

In today's digital age, navigating the choppy waters of copyright is trickier than ever. This program will deliver a brief refresher on copyright and will then focus on the Digital Millennium Copyright Act (DMCA) and copyright issues and trends pertaining to digital images, streaming videos, ebooks, software, licensing, and other problematic digital areas.

Creative Commons Licensing

- **Attribution (BY)**: Others can copy, distribute, display, perform and remix your work if they credit your name as requested by you.

- **No Derivative Works (ND)**: Others can only copy, distribute, display or perform verbatim copies of your work.

- **Share Alike (SA)**: Others can distribute your work only under a license identical to the one you have chosen for your work.

- **Non-Commercial (NC)**: Others can copy, distribute, display, perform or remix your work but for non-commercial purposes only.
Rainbow over Gullfoss ("Golden Falls" in Icelandic), a waterfall located in the canyon of the Hvítá river and one of the main attractions of the Golden Circle in southwest of Iceland. The fall step on the left is 11 m high and the one on the right 20 m high. The amount of water flowing is in summer, when the picture was taken, 140 m³/s.
Free high quality images you can use anywhere

Over 440,000 free photos, vectors and art illustrations

Finding free images of high quality is a tedious task - due to copyright issues, attribution requirements, or simply the lack of quality. This inspired us to create Pixabay - a repository for stunning public domain pictures. Your source for royalty free stock photos and copyright free vector graphics. You can use any Pixabay image without attribution in digital and printed form, even for commercial applications.
Please note that search.creativecommons.org is not a search engine, but rather offers convenient access to search services provided by other independent organizations. CC has no control over the results that are returned. Do not assume that the results displayed in this search portal are under a CC license. You should always verify that the work is actually under a CC license by following the link. Since there is no registration to use a CC license, CC has no way to determine what has and hasn't been placed under the terms of a CC license. If you are in doubt you should contact the copyright holder directly, or try to contact the site where you found the content.
