Words to know

• Manga:
  • Japanese comic style, traditionally in black and white. Some manga is found serialized in magazines, but most likely you will find multiple chapters bound in one book. Commonly read from right-to-left, instead of the American-style left-to-right.

• Anime:
  • Anime, simply put, is animation from Japan. It can also be considered animation that emulates the Japanese art style. The format can be a TV series, a mini-series (sometimes called an OVA- Original Video Animation), or a movie.

• Light Novel:
  • A format of Japanese novel in which dialogue is common, prose is short and rarely lengthy, and that can be read quickly. Character illustrations are often included in color pages in the front of the novel, and black and white illustrations are done throughout the novel as well.

When growing up already requires all the luck and effort a teenager can muster, what happens when you throw spirits, spell circles, and broomsticks into the mix?
